

**ACI-CRSI ADHESIVE ANCHOR INSTALLER CERTIFICATION**

**Program description:** Designed to train and test individuals about the proper process of installing adhesive type anchored elements according to current published ACI standards and AAI Certification Guide. **An Adhesive Anchor Installer is an individual who has demonstrated the ability to read, comprehend and execute instructions to properly install adhesive anchors in concrete.**

- **All attendees must bring a #2 pencil to take the written exam.**

**Performance examination:** AAI Performance exams are based on both vertical down and overhead installation proper practices. The review session will focus on proper use of tools, proper preparation, installation technique and proper use of manufacturer(s) printed installation instructions (MPII). **Use of your own personal safety equipment (safety glasses, respirator, long sleeve shirt and pants, boots) is advised. Previously used glasses, respirators and latex gloves will be provided.**

**Required Text:** ACI-CRSI Certification Adhesive Anchor Installer Workbook CP-80 (12)

**Pre-requisites:** Previous coursework not required for AAI, however, field experience is helpful for completing exams in a timed setting required for certifications. For additional information about this program contact: **Michael Padula email: [mpadula@pennoni.com](mailto:mpadula@pennoni.com).**

**Class/Exam Schedule:** Training (4 hours), additional self-study and Saturday performance exam (5-6 hours) and written (1.5 hour) exam with text provided. Special arrangements can be accommodated for individuals requiring oral testing or in house training/exams.
